Articles (as that term is defined in paragraph (c) of this section);
1910.1200 (c) defines an article as:

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

We hope this satisfies your needs. If more information is required, or if you have additional questions, please call 717-698-1403.
