

Hydraulic Adapter Kit

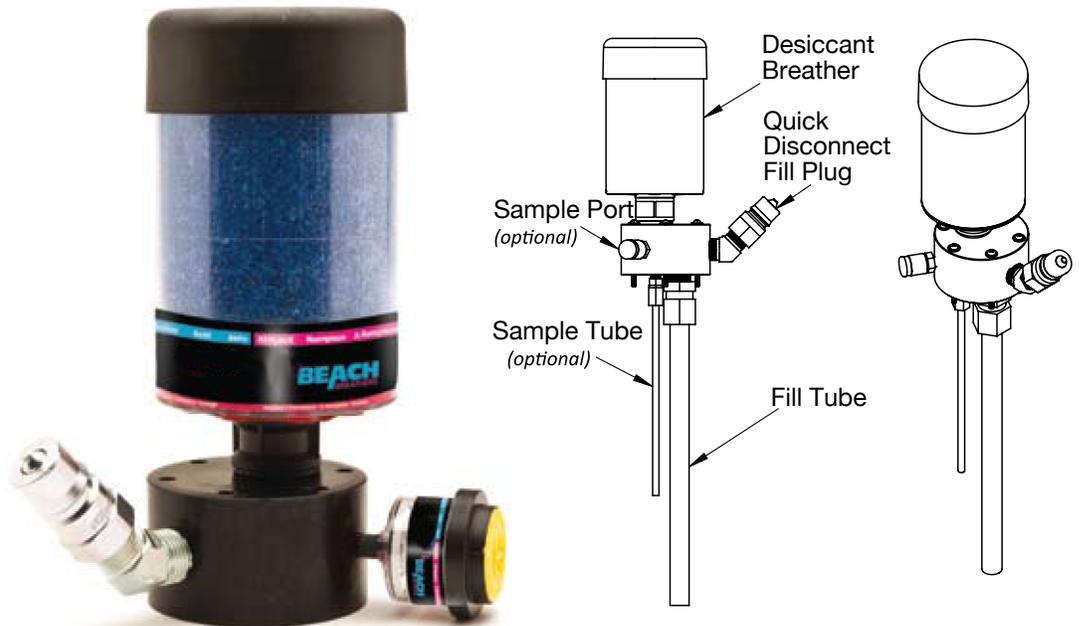

The connection between application and filtration system

Features

- Replaceable breather with color-indicating desiccant
- Quick connect plugs
- Single-position vacuum indicator
- Sample port
- 6-hole flange connection size

Benefits

- Prohibits entry of dirt and moisture
- Allows for easy equipment adaptation and quick connection to a filtration system
- Customizable

Beach hydraulic adapter kits incorporate quick connect fittings, desiccant breather filters, vacuum indicators, and sample ports to function as the connection between your application and filtration system. Pairing fluid handling filtration with breather protection allows for maximum system integrity – requiring less equipment and labor while reducing system contamination.

Customize your adapter kit at beachfilters.com/fluidguard

For clean, dry air

Select the desired symbol (in the correct position) to construct a model code. Then call your local distributor of Beach if you don't see the options you need or would like additional assistance.

DRAIN CONNECTOR TYPE / SUCTION SIDE* [Box 2]

Code	Description
F	Flush Face Connector
A	ISO A Connector
B	ISO B Connector

* All are plug ends (male)

DRAIN CONNECTOR SIZE [Box 3]

Code	Description
3	1/2 inch
5	3/4 inch
7	1 inch

FILL CONNECTOR TYPE / PRESSURE SIDE* [Box 4]

Code	Description
F	Flush Face Connector
A	ISO A Connector
B	ISO B Connector

* All are plug ends (male)

FILL CONNECTOR SIZE [Box 5]

Code	Description
3	1/2 inch
5	3/4 inch
7	1 inch

FILL TUBE LENGTH [Box 6]

Code	Description
*12	12 inches
18	18 inches
24	24 inches
30	30 inches

* Recommended length of 12"

SAMPLE PORT [Box 7]

Code	Description
0	None
1	Standard Mininess

SAMPLE TUBE LENGTH [Box 8]

Code	Description
	Enter 2 digits (e.g. 08 for 8 inches) ranging from 06-60*

*Enter 00 for no sample port

BREATHER FILTER [Box 9]

Code	Description
02	3-micron particulate desiccant breather; 0-60 gallons; 120 gpm [BB-2]
03*	3-micron particulate desiccant breather; 61-100 gallons; 120 gpm [BB-3]
04	3-micron particulate desiccant breather; 101-200 gallons; 120 gpm [BB-4]
ND35	0.3-micron oil coalescing pleated particulate breather for oil-mist applications; non-desiccant; 300 gpm [BB-ND-35]
XD	0.3-micron particulate desiccant breather for harsh environments; 0-200 gallons; 120 gpm [BB-XD-6]

REORDER NOTE: For breather replacement, use bracketed number.

* Standard for hydraulic adapters

CUSTOM COLORS [Box 10]

Code	Description
1	Brushed Aluminum
2	Black*
3	White
4	Blue
5	Red
6	Yellow

* Black is standard

Considerations such as humidity level, frequency and maximum amount of air flow, ambient temperatures, gallons of lubricant and chemical compatibility are very important in sizing a desiccant breather properly. Call Beach for assistance in sizing the appropriate breather for your application.
