

BEACH BREATHERS

For clean, dry air

Tote Adapter Kit

The connection between application and filtration system

Features

- Replaceable breather with color-indicating desiccant
- Quick connect plugs
- 2" male NPT connection size

Benefits

- Prohibits entry of dirt and moisture
- Allows for easy equipment adaptation and quick connection to a filtration system
- Customizable

Beach tote adapter kits incorporate quick connect fittings and desiccant breather filters to function as the connection between your application and filtration system. Pairing fluid handling filtration with breather protection allows for maximum system integrity—requiring less equipment and labor while reducing system contamination.

When clean dry air is a must, Beach is the clear choice.

Code	Description
	Enter 2 digits (e.g. 06 for 6 inches) ranging from 06-35"

* Recommended length of 6"

SAMPLE PORT [Box 7]

Code	Desc.
0	None
1	Standard Minimes

SAMPLE TUBE LENGTH* [Box 8]

Code	Description
	Enter 2 digits (e.g. 08 for 8 inches) ranging from 06-35"

* Enter 00 for no sample port

BREATHING FILTER [Box 9]

Code	Description
02*	3-micron particulate desiccant breather; 0-200 gallons; 120 gpm [BB-2]
03	3-micron particulate desiccant breather; 201-350 gallons; 120 gpm [BB-3]
04	3-micron particulate desiccant breather; 351-500 gallons; 120 gpm [BB-4]

Customize your adapter kit at beachfilters.com/fluidguard

* Standard for tote adapters

REORDER NOTE: For breather replacement, use bracketed number.

CUSTOM COLORS [Box 10]

Code	Description
1	Brushed Aluminum
2	Black*
3	White
4	Blue
5	Red
6	Yellow

* Black is standard

Considerations such as humidity level, frequency and maximum amount of air flow, ambient temperatures, gallons of lubricant and chemical compatibility are very important in sizing a desiccant breather properly. Call Beach for assistance in sizing the appropriate breather for your application.
