

# BEACH FILTERS *Clear The Air*

## Replacement Filter Element & Breather Sales Await!

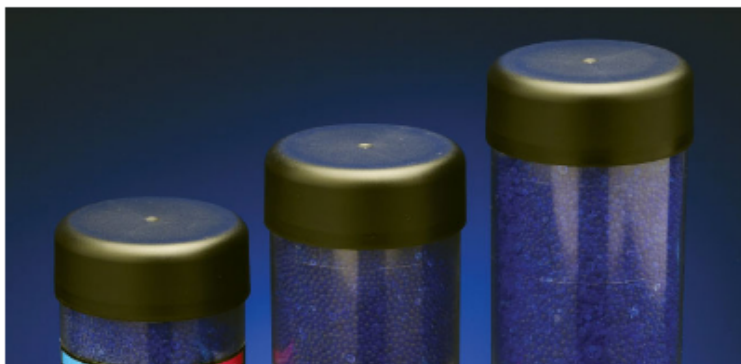

## Spring is here!

It's a perfect time of the year to remind your customers to check their Beach Compressed Air Filters and order replacement elements.

Filters and other elements should be replaced every 3 to 6 months. Give your customers a call or e-mail, remind them on your next visit.

Recommend Maintenance Kits with elements, gaskets, o-rings, scrubbers, etc., as best value & best practice. Naturally, we have inventory and can ship out same day!

## And While They're At It...

## Beach Breathers Need Replacement Too!

Remind customers to check their clear view Beach Breathers frequently. The blue silica gel desiccant turns pink when it needs to be replaced. Each application is different, but a 3-6 month replacement cycle is common. Let us know if we can help you with element or breather replacement reminders.

## 6-Month Inventory Reduction Promotion Container Dri II Desiccant Packs

For the next 6 months get 20% off on all orders of Container Dri II packets.

Container Dri® II is a specifically designed desiccant aimed at protecting cargo during shipping by absorbing moisture vapor in the air.

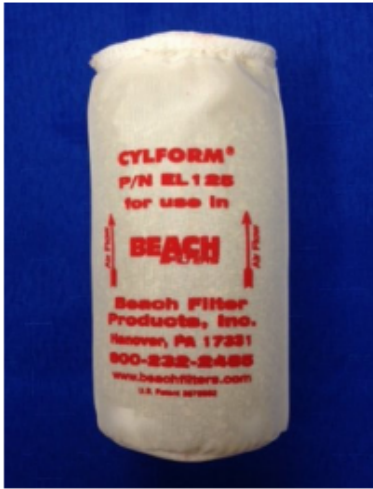

Container Dri absorbs up to three times its weight in moisture, and through an advanced formula, traps it as a thick, no-spill gel.

- Ideal for industrial uses, especially in container shipping
- Controls dew point temperatures in both refrigerated and non-refrigerated containers
- Available in 125 gram (4 oz) adhesive-backed single envelopes
- Effective in areas 25 to 50 ft.
- Active ingredients calcium chloride and starch absorb moisture and trap it as a thick, no-spill gel
- Single use

Call 717-698-1403 for pricing and delivery.
