

BEACH FILTERS

Clear The Air

Nothing but the Best

Our number one selling breather is the BB-2. It is one of our most versatile and widely used breathers on the market. The BB-2 is excellently suited for, but not limited to, uses in transformers, storage drums, totes, and hydraulics. Compatible with all gear oil, mineral and synthetic oil, and most hydraulic fluids, there are few limitations to its application.

Featuring:

- 3-micron filtration
- 1" multi-fit male connection
- 16cfm airflow
- 4 fl. oz. absorption capacity

Let's put it on Paper

Pulp and Paper facilities can be a great environment for Beach Breathers to do what they do best. The rebuildable steel series can be a powerhouse of moisture control in these harsh environments, specifically on the lubricating oil tank. Down to 1 micron filtration that accommodates the largest of airflow this rugged breather allows for quick and easy filter and desiccant bag replacement.

Solutions for your equipment

If your looking for the right lubrication best practice solution we can help. With access to an extensive library of product designs and solution we can come up with not just the right breather, but also other best practice tools and accessories for you. Contact us to learn

Distributor support includes:

- *Shipping Within 24 Hours*
- *Personal Service On Every Order*
