

# BEACH FILTERS

## Clear The Air

### A GO TO FOR CLEAN, DRY COMPRESSED AIR AND GASES.

Beach Filter Products' in-line air filters are a highly efficient point-of-use desiccant type filter. Offering sizes that work from 20 to 1200 scfm at 100 psig, our filters are efficient at removing oil and oil vapor, moisture, and particulate down to 0.3 microns. Featuring clear acrylic, seamless aluminum, and seamless aluminum with a sight glass, our in-line filters can service a wide variety of moisture related threats.

**Patented Beach Cylform® elements are available in a variety of desiccant:**

- Standard Clay-remove hydrocarbons, moisture and particulates.
- Silica Gel-remove moisture and results in low dew point.
- Activated Carbon-odor removal, oils and oil vapors
- Special Desiccants-other desiccants on request.

#### Plagued by Welding Woes?

Beach Filters offers a specially designed compressed air filter for welding and paint industries and any application where moisture-free air is critical. Moisture Bloc™ features a patented filter element that prevents any moisture from getting through and binds when saturated. Replacing the element requires no tools. Key benefits include improved cutting arc stability and reduction on plasma cutter consumables.

#### Distributor support includes:

- *Shipping Within 24 Hours*
- *Personal Service On Every Order*
