

BEACH FILTERS *Clear The Air*

STA-DRI by Beach

Sta-dri® is engineered and designed to maximize the use of its main feature, bentonite clay. This desiccant clay has many features and offers a wide variety of applications.

- Well-Suited for environments where a gradual release of moisture is acceptable.
- Areas of Use included are:
 - Artwork Preservation
 - Industrial Packaging
 - Firearms
 - Electronics
 - Food Products
 - Home Storage
- Cost-Effective: Clay desiccants are less expensive than other manufactured desiccants.
- Composition: Bentonite clay is chemically inert, non-corrosive, and naturally attracts water particles away from packaged items.

Sta-Dri® offers several benefits for the automotive industry, particularly in protecting vehicles during storage and transit. They prevent rust, mold, and mildew from forming on vehicle components, including upholstery, electronics, and other sensitive materials. Using Sta-Dri® can reduce the need for costly repairs and maintenance caused by moisture damage and keep vehicles in excellent working condition.

Distributor support includes:

- Shipping Within 24 Hours
- Personal Service On Every Order
